

IKHOUBI MOUNCEF

software engineer

As a motivated first-year software engineering student, I'm driven by a passion for AI and data manipulation. I'm actively seeking my first internship opportunity to not only enhance my skills but also to make meaningful contributions to innovative projects in the field. I'm excited to embark on this journey and add value

Education

- The preparatory classes of the major engineering schools

2021-2023

Oujda

- Ensem-national higher school of electricity and mechanics

2023-2026

Casablanca

Skills

- | | |
|--------------------|-------|
| PROBLEM SOLVING | ● ● ○ |
| ADAPTATION | ● ● ○ |
| TEAM WORK | ● ● ○ |
| MEETING DEADLINES | ● ● ○ |
| CRITICAL THNINKING | ● ● ○ |

academic project :

- pdf to Pdf/A project using flask python
| Ensem

I Managed a project converting PDFs to PDF/A format, ensuring compliance with archival standards. Implemented robust solutions for seamless document transition, enhancing skills in digital preservation and software development

- Dijkstra and Travel salesmane project
| Ensem

Developed a program to find the shortest path between Moroccan cities using Dijkstra's algorithm, optimizing efficiency and accuracy. Additionally, devised a solution for the Traveling Salesman Problem (TSP), efficiently determining the shortest route visiting all specified cities exactly once before returning to the starting point. This project honed my problem-solving skills and enhanced my understanding of graph theory and optimization algorithms.

Technical knowledge :

Programming language :

C, C++, Python, javascript, PHP

Web development :

HTML, CSS

software design :

UML, Merise

database :

MySQL, Oracle

Language

Arabic

English

French
